## TENDER CALL

## Call For Request to Qualify and Quote

RQQ No. 2009-RCI-060 Engineering Assignment for Temporary and New Kitchener GO Train Layover Facilities

Engineering Assignment for Temporary and New Kitchener GO Train Layover Facilities

Metrolinx is accepting Requests to Qualify and Quote for Engineering Assignment for Temporary and New Kitchener GO Train Layover Facilities

A Mandatory Site / Information Meeting will be held at 10:00 a.m. on January 14, 2010 at Metrolinx's Head Office, 20 Bay Street, Suite 600, Toronto, Ontario (Consultants to meet at reception and wait to be directed to a meeting room).

Failure of Consultants to be present and registered from the time the meeting is called to order until the meeting is adjourned will result in exclusion from the site.

Consultants must wear hard hats, safety boots, safety vests and have safety glasses with them at the site meeting(s). Failure to satisfy these requirements will result in exclusion from the site.

Requests to Qualify and Quote documents are available weekdays from 8:00 a.m. and 4:00 p.m. from Metrolinx's Procurement and Contract Services Office at the address below. Tender documents are provided only in hard copy format. No electronic versions are available. Tender documents must be picked up in person and shall only be issued to persons who provide all of the following: company name, address, telephone and fax numbers and contact name and who reference the above Tender number. Call (416) 869-3600, ext. 5643 or e-mail [sabrina.tecca@gotransit.com](mailto:sabrina.tecca@gotransit.com) for inquiries.

Sealed Requests to Qualify and Quote will be accepted until 3:00 p.m. on Thursday January 28, 2010 at the same Procurement and Contract Services Office.

Metrolinx reserves the right to reject any or all Requests to Qualify and Quote at its sole discretion.

Only Consultants who possess the following experience and qualifications will be considered for award of this Contract:

- Design and construction of railway passenger train storage facilities;
- Design and construction of fuelling facilities;
- Design and construction of high voltage sub-stations and wayside power system; and
- Civil works, including grading and storm water management.
